Hi Chris,

See attached. Discuss with the group tomorrow. I will consulting with Valerie on those identified for her.
Thanks

-Pete

Sounds like there are conflicts that cannot be resolved. Please see the attached revised schedule.

Peter MacNicholl – In order for this to be productive, can you please send your strawman responses to CAG comments before tomorrow morning so I can walk through them with Lynn and Alex in the morning?

Subject: RE: Agency Technical Meeting Agenda for 7-25

Hi Everyone – The schedule for the Agency technical meeting will need to be revised to accommodate availability. We typically discuss Groundwater topics in the morning and Source Area topics in the afternoon. The primary topic for the source areas is Area 40, which requires DTSC participation. Understanding that Source Area topics are typically in the afternoon, DTSC had already committed to a morning meeting on another project. DTSC can participate at 1pm on Wednesday. Can we please rearrange the meeting as follows:

9-1 PGOU/WGOU/Groundwater
1-5 Source Areas

I understand that EPA has scheduled a separate meeting in the afternoon and would like to know if this separate meeting can be re-arranged to accommodate the standard Agency technical meeting schedule. Thanks, Chris

Subject: Agency Technical Meeting Agenda for 7-25

Good Afternoon Everyone,

Please find attached the draft Agenda for this week's Agency Technical Meeting on Wednesday 7/25/18. If you would like anything added or changed on the agenda, please let me know.

Also, please note the location change on the Agenda. Our department at Aerojet has moved, so we will no longer meet at the Pyrites Way office. Instead we will meet at the Aerojet Visitor Control Center. For those of you unfamiliar with visitor control, please see the directions below:

"The physical address for Aerojet is 2001 Aerojet Road, Rancho Cordova, CA 95742.

As you drive toward the guard gate, there will be a sign on the left-hand side that says Visitor's Center. If you get to the guard gate you/they have gone too far! There is parking at the Visitor's Center in a circle-type of drive. If that is full, there is parking right outside of that area. Have everyone check in with the guard at the counter, and say they are here for a meeting in the room reserved for Carole Israel Freeman. There is only one conference room in that building. You may have to show some ID. No one should have to see the new visitor "movie" because you won't be leaving the building."

Please feel free to call me at the numbers below if you have questions regarding the Agenda or the new location.

Thanks,

Peter Kvam
